## Wagenborg Stevedoring

In the ports of Delfzijl and Eemshaven in the north of the Netherlands, Wagenborg has modern multipurpose terminals with a storage capacity of 390,000m<sup>2</sup>. The 1,800m quay has roll-on and roll-off facilities and a draught of 11m.

The total storage capacity of Wagenborg Stevedoring is 390,000m<sup>2</sup>. From Delfzijl and Eemshaven there are excellent connections with the hinterland, Germany and the Netherlands. This means that Wagenborg can guarantee a seamless transport chain. Goods from the Netherlands and Germany are stored and transhipped in sea-going vessels via Wagenborg Stevedoring. Cargo destined for the northwest European markets finds its way over land and water via the modern transhipment terminal in Delfzijl.

The quality standard is kept high with constant training/refreshers and it goes without saying that this includes safety and the environment. Furthermore, all our personnel is VCA trained and Wagenborg Stevedoring is ISO 9001, ISO 14001 and GMP+B3 (2007) certified.
