

Welcome to Royal Wagenborg

Whatever transport is important to your business: Royal Wagenborg has been looking for the most intelligent and reliable transport solutions for more than a century. Royal Wagenborg finds them with committed people and state of the art equipment. Wagenborg, a sign of solutions since 1898.

PUCCINI

Wagenborg Offshore owns and operates several accommodation floatels with comfortable cabins, together with recreational spaces, offices, workstations and meeting rooms. All floatels are suited for duty in sheltered waters, ideally moored alongside berth or quay.

The floatel "Puccini" has an accommodation capacity of 75 cabins and can be used in a single, double or quadruple person per cabin configuration.

"Puccini" can potentially be used at:

- onshore and offshore oil, gas and LNG construction sites
- projects with changing accommodation requirements
- project management accommodation
- Staff accommodation housing
- refugee accommodation

"Puccini" is fully compliant with the applicable marine regulations and meets the oil & gas safety standards.

Wagenborg Offshore

As an international offshore specialist and with many years of experience in the global oil and gas transport business, Wagenborg Offshore has committed professionals at its heart, carrying out complex logistic projects worldwide.

Wagenborg Offshore is a specialist in shallow water transport and has been operating in the Caspian Sea for decades with its dedicated vessels. The company also has vast experience and knowledge of ice navigation in Baltic and Scandinavian waters.

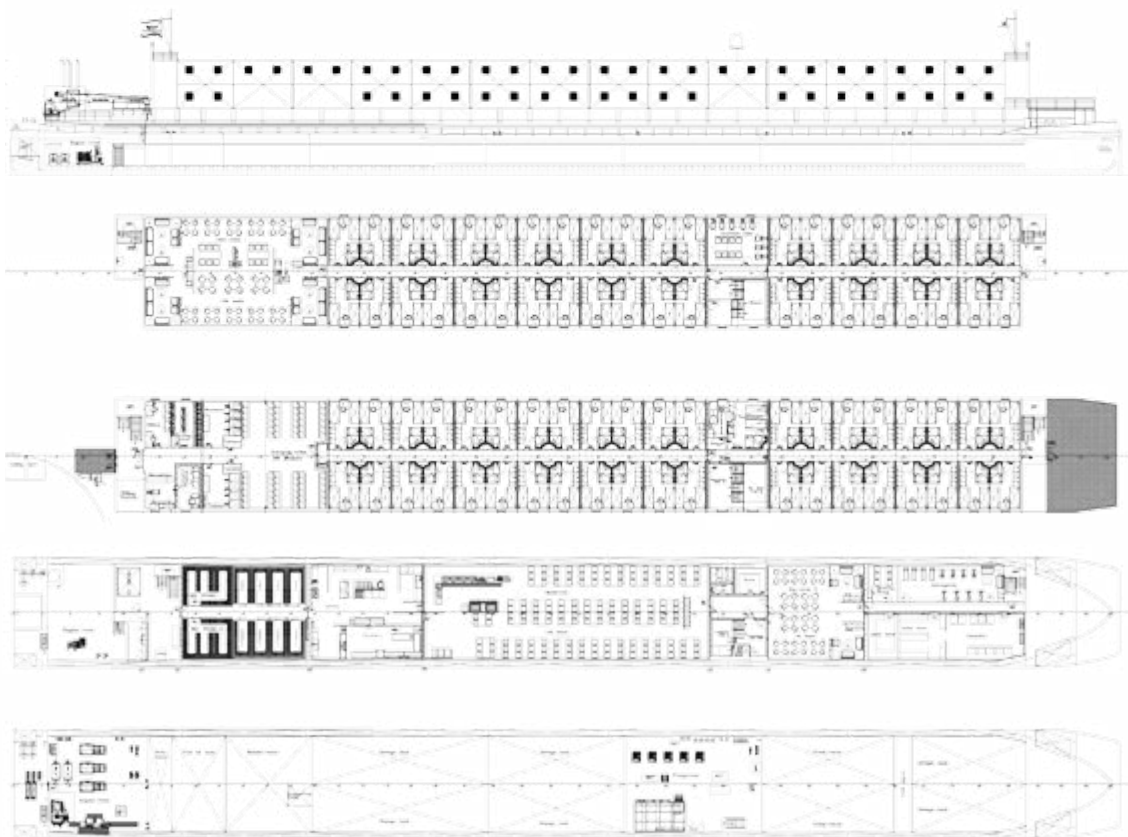

Wagenborg Offshore has state-of-the-art equipment and technologies that comply with the highest quality industry standards.

 Winter: outside -36C°
 inside +18C°

ENVIRONMENTAL

Zero dumping provisions
 Sewage plant
 Outlet criteria in accordance with RosR. suitable for 300 pax.
 Incinerator TeaTech 500

A cost effective choice

Our floating hotel "Puccini" has a shallow draught and can be used to accommodate personnel on projects in more remote area's or where existing shore accommodation is not available due to economic or safety reasons. Having accommodation close to a working area of construction site is essential keep costs within budget in large scale projects. Deploying our comfortable floating hotel close to an onshore or offshore working area means more productive hours and less travelling time for the workers. Moreover, "Puccini" has a minimal environmental impact and limited infrastructure requirements.

Comfortable accommodation facilities

Good personnel is hard to find and comfortable accommodation facilities with adequate recreational facilities is paramount. All cabins are fully air conditioned with bathroom, lockers, desk and chair. "Puccini" has a structured cabling system installed with internet, telephone and television. Further a restaurant with quality catering, bar, recreation rooms, gymnasium and laundry facilities are available to all guests on board. Office facilities and meeting rooms complete the facilities.
