

SITE INSTALLATION MANAGEMENT

SITE INSTALLATION MANAGEMENT

Wagenborg Foxdrill can provide you with competent Site Installation Managers for on-site coordination and supervision of wind turbine (pre) assembly and installation.

Through a long track record of assembly, modification and inspection projects in technical environments like oil & gas we are familiar with the challenges of on-site processes part of significant assembly projects. Duties such as organising parts & components, coordinating with other parties/suppliers, progress monitoring/reporting, registration of site queries/non-conformities, risk assessment, toolbox meetings and interfacing with yard and client personnel are part of our competencies.
